(TTY users may call the Federal Relay Service toll-free at 800-877-8339 and ask to be connected to 202-326-4400, extension 6352.)

**SUPPLEMENTARY INFORMATION:** Section 4010 of the Employee Retirement Income Security Act of 1974 (ERISA) and PBGC's regulation on Annual Financial and Actuarial Information Reporting (29 CFR Part 4010) require each member of a controlled group to submit financial and actuarial information to PBGC under certain circumstances. Section 4010 specifies that each controlled group member must provide PBGC with certain financial information, including audited (if available) or (if not) unaudited financial statements. Section 4010 also specifies that the controlled group must provide PBGC with certain actuarial information necessary to determine the liabilities and assets for all PBGC-covered plans.

PBGC's 4010 regulation specifies the items of identifying, financial, and actuarial information that filers must submit under section 4010, through PBGC's secure e-4010 web-

based application. Computer-assisted analysis of this information helps PBGC to anticipate possible major demands on the pension insurance system and to focus PBGC resources on situations that pose the greatest risks to that system. Because other sources of information are usually not as current as the section 4010 information and do not reflect a plan's termination liability, the section 4010 filing plays a major role in PBGC's ability to protect participant and premium-payer interests.

PBGC estimates that 560 controlled groups would file each year. The total estimated annual burden of the information collection would be approximately 532 hours and \$12,830,000.

The existing collection of information was approved under OMB control number 1212-0049 (expires July 31, 2019). PBGC intends to request that OMB extend approval of this information collection for another three years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC is soliciting public comments to—

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodologies and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*

permitting electronic submission of responses.
